2.7 Methods and the procedures

The Company has implemented review and the disclosure procedures for the RRPTs to ensure that the RRPTs are conducted on arm's length basis and are based on normal commercial terms consistent with the Company's usual business practices and are undertaken on transaction prices and terms that are not more favourable to the Related Parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company.

To monitor the RRPTs, the following methods and the procedures have been implemented: -

- (i) the management of INNITY will ensure that the RRPTs will only be entered into after taking into account the pricing, expertise and other related factors. The transaction prices will be determined by market forces and the availability of the amounts/resources to be transacted, similar to those prices for transactions with unrelated third parties;
- (ii) a register will be maintained by the Company to record all the RRPTs and will be made available to the Audit and Risk Management Committee ("ARMC") for its quarterly review;
- (iii) the ARMC will undertake a periodic review of the RRPTs to ensure that such transactions are undertaken at arm's length, on normal commercial terms, on terms not more favourable to the Related Parties than those generally available to the public and are not, in the Company's opinion, detrimental to the minority shareholders of the Company. In its review and approval of such transactions, the ARMC may, as it deems fit, request for additional information pertaining to the RRPTs;
- (iv) In the case of RRPTs where any of the Director has a direct or indirect interest, he shall abstain from all deliberations and voting in respect of the said transaction. Where any members of the ARMC are interested in any transactions, that member shall abstain from voting in any matter relating to any decision to be taken by the ARMC with respect to such transactions.
- (v) The thresholds for the approval of RRPTs within INNITY Group are as follows: -
 - (a) RRPTs up to RM1 million each in value will be reviewed and approved by the Group Managing Director;
 - (b) RRPTs above RM1 million each in value will be recommended by the Group Managing Director and approved by the Board; and
- (vi) At least two contemporaneous transactions with unrelated third parties for similar products/services and/or quantities will be used as comparison, wherever possible, to determine whether the price and terms offered to/by the related parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of products/services and/or quantities.

In the event that quotation or comparative pricing from unrelated third parties cannot be obtained, the transaction price will be determined by the Group based on the usual business practices of the Group to ensure that the RRPTs are not detrimental to the Group.

2.8 Statement by the Audit and Risk Management Committee

The ARMC of the Company has seen and reviewed the procedures mentioned in Section 2.7 above and is of the view that the said procedures are sufficient to ensure that the RRPTs are not more favourable to the Related Parties than those generally available to the public and are not to the detriment of the minority shareholders of the Company. INNITY Group has in place adequate procedures and processes to monitor, track and identify RRPTs in a timely and orderly manner, which procedures and processes are reviewed on a quarterly basis by the ARMC.

The ARMC is in the opinion that the Proposal are in the best interest of the listed corporation. Furthermore, the ARMC of the Company shall also have the discretion to request for additional procedures to be followed if it considers such a request to be appropriate.

- (ii) the names of the Related Parties involved in each type of the RRPTs made and their relationships with the Company,

and in the annual report for the subsequent year that the Proposal continue to be in force.

3. RATIONAL AND BENEFITS OF THE PROPOSAL

The RRPTs are in the ordinary course of business of the Group and are undertaken at arm’s length on normal commercial terms and on terms not more favourable to the Related Parties than those generally available to the public. They are likely to occur to some degree of frequency and arise at any time and from time to time.

The Proposal, subject to annual review, will enhance the ability of the Group to pursue business opportunities which are time-sensitive in nature and will eliminate the need for INNITY to announce and convene separate general meetings on each occasion to seek prior approval of the shareholders of the Company for the RRPTs. This will substantially reduce the expenses associated with convening general meetings on an ad hoc basis, improve administrative efficiency considerably and allow resources and time to be channelled towards attaining corporate objectives.

The Group should have access to all available markets, including the Related Parties. The RRPTs are intended to meet the business needs of the Group at the best possible terms. By transacting with the Related Parties, the Group would have an advantage of familiarity with the background, financial wellbeing and management of the Related Parties, thus enabling more informed commercial decisions to be made. In most dealings with the Related Parties, the Group and the Related Parties have a good understanding of each other’s business needs and expectations thus providing a platform where all parties can benefit from conducting the RRPTs.
